

Athen. Office June 7/54.

My dear Sir,

Could you give me an article
— two or three column — of the contents of Dr.
Eberle's purchase? There must be curious old &
strange things in the MSS.

I send you a Shakspeare book in English,
another in German. Let me know if you can deal
with the latter — at your convenience. If you will
keep your eye on any literary matter of Grub
I shall feel obliged to you, — & if you will also

Kindly point out among books announced
which you would like to review, this
~~will~~
~~will~~ also facilitate my search & distribution.

Ever faithfully yours

Reverend Dr. D. W. —

Pf. looking at the German book again - I
find this now over binding! Is there
anything in the new catalog of the Concord
Society - anything good & pleasant?
